## **Editorial Review**

Review

'great reference for...**medical students** wanting a reference on specific hematopathological diseases to **practicing hematopathologists** faced with diagnostic dilemmas'

'chapter format includes **background information, epidemiology, clinical features, morphology, immunophenotype, molecular aberrations**, and most importantly **differential diagnoses for each entity**'

'**abundant images** are of high quality and adequately labeled'

'**more detailed** than other books in this area'

'Due to the abundance of new information about **molecular alterations** in hematological malignancy and the **new WHO classification**, this edition **filled an important void**.'

'Weighted Numerical Score: 96 - 4 Stars!'
