## The Cold War and After: Capitalism, Revolution and Superpower Politics (Critical Introductions to World Politics) By Richard Saull

'Richard Saull provides us with major new insights into the turbulent history of the twentieth century - once dominated by a fear of revolution and now driven by new worries about weapons of mass destruction and global jihad. A must read for those looking for another way of thinking about our dark times.' Professor Michael Cox, Department of International Relations and Director of the Cold War Studies Centre at the London School of Economics 'Rick Saull provides a comprehensive reinterpretation of world politics in the 'short twentieth century' (1917-91). . . . Whatever your perspective, this book will challenge you to rethink your views of Cold War politics, and the post-Cold War world.' Mark Rupert, Professor of Political Science, Maxwell School of Citizenship & Public Affairs, Syracuse University, USA 'An indispensable book.' Professor Marilyn Young, Department of History, New York University 'Sophisticated and illuminating. The book exposes the thin superficiality of mainstream efforts to capture and explain the dynamics of the Cold War. And it raises fundamental theoretical issues about the sociology of contemporary international politics. Richard Saull's fascinating and challenging book will be indispensable not only for students of Cold War history but for students of international relations theory.' Peter Gowan, Professor of International Relations, London Metropolitan University The Cold War is often presented as a power struggle between the Soviet Union and the US. Richard Saull challenges this assumption. He broadens our understanding of the defining political conflict of the twentieth century by stressing the social and ideological differences of the superpowers and how these differences conditioned their international behaviour. Saull argues that US-Soviet antagonism was part of a wider conflict between capitalism and communism involving states and social forces other than the super

### **Editorial Review**

#### **Review**

'Saul's survey of the theoretical debate on the Cold War is sophisticated and illuminating. It raises fundamental theoretical issues about the sociology of contemporary international politics' -- Peter Gowan, Professor of International Relations, London Metropolitan University 'Richard Saul's brilliant [book] is an indispensable account of the Cold War which challenges the standard accounts theoretically and analytically. He carries the reader along in a vigorously argued and persuasively written narrative. No other book on the Cold War comes close to Saul's striking integration of socio-economic, ideological, strategic and military perspectives' -- Professor Marilyn Young, Department of History, New York University 'Demolishes standard accounts of the Cold War and its aftermath and ends with an intricate, complex approach to the political geography of the war on terror. An indispensable book' -- Professor Marilyn Young, Department of History, New York University 'Richard Saul takes the long view of the rise and fall of the Cold War and into the turbulent history of the twentieth century. A must read for those looking for another way of thinking about our dark times' -- Professor Michael Cox, Department of International Relations and Director of the Cold War Studies Centre at the London School of Economics 'A comprehensive reinterpretation of world politics in the 'short twentieth century' -- Mark Rupert, Professor of Political Science, Maxwell School of Citizenship & Public Affairs, Syracuse University, USA
