The Ghost of Graylock: (a Hauntings novel) By Dan Poblocki

An abandoned asylum holds the key to a frightful haunting.

Everyone's heard the stories about Graylock Hall.

It was meant to be a place of healing - a hospital where children and teenagers with mental disorders would be cared for and perhaps even cured. But something went wrong. Several young patients died under mysterious circumstances. Eventually, the hospital was shut down, the building abandoned and left to rot deep in the woods.

As the new kid in town, Neil Cady wants to see Graylock for himself. Especially since rumor has it that the building is haunted. He's got fresh batteries in his flashlight, a camera to document the adventure, and a new best friend watching his back.

Neil might think he's prepared for what he'll find in the dark and decrepit asylum. But he's certainly not prepared for what follows him home. . . .

Scary, suspenseful, and surprising, Dan Poblocki's latest ghost story will keep you turning pages deep into the dead of night.

Editorial Review

From School Library Journal

Gr 5-8-When Neil's father abandons the family to pursue fame in California, Neil and his teenage sister, Bree, are sent to stay with their aunts while their mother receives treatment for depression. The small upstate New York village where Claire and Anna live is home to Graylock Hall, a state psychiatric hospital that closed down 15 years earlier after several teenaged patients drowned. Neil's new friend Wesley quickly fills him in on the local legend of Nurse Janet, who is thought to be responsible for the patients' deaths and now haunts the abandoned building. Since Neil's favorite TV show is *Ghostly Investigators*, he relishes the thought of exploring the hospital for clues. But when he and Wesley, along with their older siblings, break into the building, they set off a chain of harrowing events that cannot be explained. In the days after their narrow escape, Neil and Bree are plagued by horrific visions and nightly visits from a ghost. As time goes on, they slowly realize that their spectral visitor is one of the drowning victims who wants to bring her murderer to justice. The further the four get in uncovering clues, the more apparent it becomes that Nurse Janet has been unjustly accused-and that the real murderer is intent on making sure that the truth is never brought to light. As with *The Nightmarys* (Random, 2010), Poblocki is in his element with eerie happenings and atmospheric settings. Short chapters with cliff-hanger endings and several twists and turns in the plot will ensure that the pages turn quickly. Give this book to Mary Downing Hahn fans and others who enjoy spine-tingling mysteries.-Kim Dare, Fairfax County Public Schools, VA(c) Copyright 2011. The author of *The Stone Child* (2009) and *The Nightmarys* (2010) crafts another undisguised chiller-thriller, this one featuring an abandoned asylum and the aggressive spirit of a young murder victim. Neil, a young amateur ghost hunter, is initially thrilled to hear that he and his older sister, Bree, are summering near a psychiatric hospital that closed more than a decade ago after three mysterious drownings and the purported suicide of an accused night nurse. His feelings change after a visit to the spooky ruin sparks a nonstop chain of nightmares, apparitions, numbness and tingling, slimy pond weeds in the bathwater, and other phenomena that lead him to the conclusion that at least one of the victimized young patients was indeed murdered. In a staccato narrative festooned with not just psychic manifestations but sudden screams, slamming doors, squealing hinges, ominous footsteps, electrical failures, moving shadows, and minor but gory wounds, Poblocki misses nary a horror-story trope as he propels his cast through one terrifying incident after another to, at last, a climactic flight. Definitely a story to be read by flashlight. Grades 5-8. --John Peters
