Islam and the Myth of Confrontation: Religion and Politics in the Middle East By Fred Halliday

The collapse of communism and the rise of militant Islamic movements in the Middle East, raised the specter of a future dominated by the conflict between ""Islam"" and ""the West"". September 11 has only branded that notion onto the world's consciousness. In this up-to-date edition of Halliday's classic text, he sets out to reject these interpretations. Considering the sources of Islamic militancy and analyzing the confrontational rhetoric of both Islamic and anti-Muslim demagogues, he provides an alternative, critical but cautious, reassessment.
