The Vaccine Religion: Mass Mind & The Struggle for Human Freedom By Walene James

According to Walene James, The Vaccine Religion is a 21st century Mass Mind Virus marketed by a multi-billion dollar hospital, drug, and insurance racket and reinforced by the World Health Organization, the United States Government and mainstream media. James argues that no one has ever proven the efficacy of any vaccine, nor has anyone proven that vaccinating a population against a specific disease led to the decline or total elimination of that disease. A “must read” for thinking individuals who truly care about the health and welfare of their children and loved ones.
