Aristotle's Economic Thought By Scott Meikle

Since the middle ages, Aristotle has been hailed as the father of economics by economists, while classical scholars hold that he did no economics at all, only ethics. This book argues that Aristotle does develop a coherent theory of value, wealth, exchange, and money, which is strongly supported by his metaphysics. But its very metaphysical foundation make the theory impossible to assimilate to Neo-Classical economics or any other kind of economic thinking, and it therefore remains an ethical theory. On Aristotelian metaphysical principles, ethics and economics are competitors over the same ground--as rival sources of reasons for decision-making in the public realm, and they cannot be reconciled.

Editorial Review

Review

"This is a delightful book..."--*The Review of Metaphysics*

From the Back Cover

It is argued here that Aristotle does develop a coherent theory of economic value, wealth, exchange, and money, but that this theory cannot be assimilated to what we call 'economics' because its metaphysical foundation is incompatible with the Human metaphysics on which economics is built.

About the Author

Scott Meikle is at University of Glasgow.

Users Review

From reader reviews:

Lois Reyna:

In this 21st centuries, people become competitive in every way. By being competitive now, people have do something to make these survives, being in the middle of typically the crowded place and notice simply by surrounding. One thing that sometimes many people have underestimated it for a while is reading. Yes, by reading a publication your ability to survive boost then having chance to stand up than other is high. For you personally who want to start reading any book, we give you that Aristotle's Economic Thought book as nice and daily reading publication. Why, because this book is more than just a book.

Archie Moriarty:

As people who live in the modest era should be up-date about what going on or details even knowledge to make these people keep up with the era which can be always change and advance. Some of you maybe may update themselves by examining books. It is a good choice for you personally but the problems coming to an individual is you don't know which you should start with. This Aristotle's Economic Thought is our recommendation to cause you to keep up with the world. Why, because this book serves what you want and wish in this era.

Amy Parr:

This Aristotle's Economic Thought is great publication for you because the content and that is full of information for you who also always deal with world and possess to make decision every minute. This kind of book reveal it details accurately using great organize word or we can declare no rambling sentences in it. So if you are read it hurriedly you can have whole facts in it. Doesn't mean it only will give you straight

forward sentences but hard core information with lovely delivering sentences. Having Aristotle's Economic Thought in your hand like finding the world in your arm, info in it is not ridiculous a single. We can say that no e-book that offer you world in ten or fifteen second right but this reserve already do that. So , it is good reading book. Hi Mr. and Mrs. occupied do you still doubt this?

Beatrice Blakely:

That book can make you to feel relax. This book Aristotle's Economic Thought was vibrant and of course has pictures on there. As we know that book Aristotle's Economic Thought has many kinds or genre. Start from kids until teens. For example Naruto or Investigator Conan you can read and think you are the character on there. So , not at all of book tend to be make you bored, any it offers you feel happy, fun and rest. Try to choose the best book in your case and try to like reading that will.
