Coatings Tribology: Properties, Mechanisms, Techniques and Applications in Surface Engineering (Tribology and Interface Engineering) By Kenneth Holmberg, Allan Matthews

The surface coating field is a rapidly developing area of science and technology that offers new methods and techniques to control friction and wear. New coating types are continually being developed and the potential applications in different industrial fields are ever growing, ranging from machine components and consumer products to medical instruments and prostheses. This book provides an extensive review of the latest technology in the field, addressing techniques such as physical and chemical vapour deposition, the tribological properties of coatings, and coating characterization and performance evaluation techniques. Eleven different cases are examined in close detail to demonstrate the improvement of tribological properties and a guide to selecting coatings is also provided. This second edition is still the only monograph in the field to give a holistic view of the subject and presents all aspects, including test and performance data as well as insights into mechanisms and interactions, thus providing the level of understanding vital for the practical application of coatings.

- * An extensive review of the latest developments in the field of surface coatings
- * Presents both theory and practical applications
- * Includes a guide for selecting coatings

Editorial Review

Users Review

From reader reviews:

Stuart Rosado:

The e-book with title Coatings Tribology: Properties, Mechanisms, Techniques and Applications in Surface Engineering (Tribology and Interface Engineering) possesses a lot of information that you can learn it. You can get a lot of advantage after read this book. That book exist new expertise the information that exist in this e-book represented the condition of the world right now. That is important to yo7u to find out how the improvement of the world. This particular book will bring you inside new era of the glowbal growth. You can read the e-book on your smart phone, so you can read it anywhere you want.

Patricia Miller:

Reading can called head hangout, why? Because if you find yourself reading a book particularly book entitled Coatings Tribology: Properties, Mechanisms, Techniques and Applications in Surface Engineering (Tribology and Interface Engineering) the mind will drift away trough every dimension, wandering in each and every aspect that maybe not known for but surely can be your mind friends. Imaging every single word written in a reserve then become one application form conclusion and explanation that maybe you never get prior to. The Coatings Tribology: Properties, Mechanisms, Techniques and Applications in Surface Engineering (Tribology and Interface Engineering) giving you an additional experience more than blown away your head but also giving you useful details for your better life in this era. So now let us explain to you the relaxing pattern here is your body and mind are going to be pleased when you are finished studying it, like winning an activity. Do you want to try this extraordinary wasting spare time activity?

Sarah McClain:

Do you have something that you prefer such as book? The reserve lovers usually prefer to choose book like comic, quick story and the biggest the first is novel. Now, why not hoping Coatings Tribology: Properties, Mechanisms, Techniques and Applications in Surface Engineering (Tribology and Interface Engineering) that give your enjoyment preference will be satisfied by means of reading this book. Reading addiction all over the world can be said as the method for people to know world better then how they react in the direction of the world. It can't be stated constantly that reading habit only for the geeky man or woman but for all of you who wants to end up being success person. So , for all of you who want to start studying as your good habit, you can pick Coatings Tribology: Properties, Mechanisms, Techniques and Applications in Surface Engineering (Tribology and Interface Engineering) become your starter.

Donna Robinson:

Is it an individual who having spare time subsequently spend it whole day through watching television programs or just lying down on the bed? Do you need something totally new? This Coatings Tribology: Properties, Mechanisms, Techniques and Applications in Surface Engineering (Tribology and Interface Engineering) can be the response, oh how comes? It's a book you know. You are so out of date, spending your free time by reading in this brand-new era is common not a nerd activity. So what these guides have than the others?
