**Endoscopic Sinus Surgery: Optimizing Outcomes and Avoiding Failures** By  
Rodney Schlosser, Richard J. Harvey

The goal of this textbook is to highlight areas from the broad spectrum of rhinology, beginning with the initial history and physical examination through the diagnostic work up, medical and surgical management and identification of potential pitfalls that may arise in order to minimize treatment failures. The authors of these chapters represent a generation of dedicated rhinologists who build upon the contribution to the field by pioneers in rhinology. They have provided their expertise and insight into common mistakes in order to aid the reader in improving treatment outcomes for their patients.

### **Editorial Review**

#### **Review**

"This is a very well produced hardback textbook....The authors are quite explicit in their aims. They set out to produce a book to highlight potential pitfalls in ESS, and to give advice on avoiding problems and optimising patient outcomes. The book is well written, and each chapter is populated with numerous tables, clinical photos, and radiological images. A nice feature of some chapters is a table of common pitfalls and errors and how to avoid them, culminating in an evidence-based summary of the chapter author's principles of evaluation, management and therapy. Other chapters include case studies to illustrate salient points." -- Kim Ah-See, Aberdeen, Scotland, UK, The Journal of Laryngology & Otology, (January 2013)

"[Endoscopic Sinus Surgery] is a thorough instruction manual to the sinuses with evidence. Each chapter ends with case scenario but most importantly ends with a chart reviewing the level of evidence in the medical literature for each management and treatment recommendation.... The video attachment is very comprehensive and helpful. There are clear videos discussing advanced techniques such as anterior and maxillary artery ligation, but there are videos that also demonstrate proper and efficient operative techniques in preparation and intraoperatively....

Endoscopic Sinus Surgery: Optimizing Outcomes and Avoiding Failures is a comprehensive textbook that focuses on technique, management, and evidence based recommendations. It is wonderful textbook to educate the learner and solidify the knowledge of an attending." --Robert Chun, Medical College of Wisconsin, Children s Hospital, International Journal of Pediatric Otorhinolaryngology

#### **About the Author**

Rodney J. Schlosser, MD is Professor and Director of Rhinology & Sinus Surgery at the Medical University of South Carolina in Charleston, South Carolina.

Dr. Harvey currently works as a dedicated rhinologist at St Vincent s Hospital in Sydney. He also has an academic appointment with the University of New South Wales and Macquarie University.
