**The Industrial Revolution in National Context: Europe and the USA** From Brand: Cambridge University Press

The Industrial Revolution has been, and continues to be, the focus of massive historiographical as well as historical enquiry. This collection includes reappraisals by Phyllis Deane and by François Crouzet of their classic accounts of industrialization in Britain and in France, and more generally broaches the wider issue of "new approaches" that have been emerging for the understanding of the industrializing process in nations where it came somewhat later.

### **Editorial Review**

#### **Review**

'... enormously impressive ... The book can be commended to all who profess a serious interest in industrialization. The admirable lucidity of most of the contributions makes it readily accessible to undergraduates and other non-specialist readers. As an introduction to the merits of comparative economic history, and of the benefits which can be obtained from well edited collaborative ventures, it is a model'. History

#### **From the Back Cover**

The Industrial Revolution has been, and continues to be, the focus of massive historiographical as well as historical enquiry. This collection includes reappraisals by Phyllis Deane and by Francois Crouzet of their classic accounts of industrialization in Britain and in France, and more generally broaches the wider issue of 'new approaches' which have been emerging for the understanding of the industrializing process in nations where it came somewhat later. In addition to grappling with questions of technical skills, economic analysis and the process of industrialization, the authors also tackle questions of national politics and international relations. In addition to the roster of authors who examine individual national experiences, a general essay by Sidney Pollard takes into account the relative contributions of the distinct national experiences in Western and Eastern Europe, the USA and Japan, and assesses them as special cases of a more general phenomenon.

### **Users Review**

#### **From reader reviews:**

##### **David Robinson:**
