### **Theoretical Philosophy, 1755-1770 (The Cambridge Edition of the Works of Immanuel Kant)** By Immanuel Kant

The eleven essays in this volume constitute Kant's theoretical, pre-critical philosophical writings from 1755 to 1770. Several essays have never been translated into English before, while others have long been unavailable. The development of Kant's thought can be traced to the eventual emergence in 1770 of the two chief tenets of his mature philosophy: the subjectivity of space and time, and the phenomena-noumena distinction.
