Red Star/Blue Sky By John Stanoch

Red Star is a collection of scenarios, campaign rules, and aircraft data cards for use with the Blue Sky air-to-air combat game for miniatures. Simple game mechanics let you recreate aerial combat over the Eastern Front. Tank busting Stukas can attack T-34s, while Me-109Gs try to hold off hordes of Soviet fighters. Swoop down on German armored columns in your well-armed Sturmovik, stopping the invaders dead in their tracks. The speed and deadly nature of air combat is accurately portrayed in a game system that allows most scenarios to be completed in 1-2 hours. Based on the highly successful Blue Sky game system, this is not a complete game.
