Research Techniques for the Health Sciences (5th Edition) (Neutens, Research Techniques for the Health Sciences) By James J. Neutens, Laurna Robinson

Research Techniques for the Health Sciences focuses on pragmatic aspects of health science research. Underlying concepts and theory are explained and illustrated through a common-sense approach utilizing case studies.

All of the text's case studies are health-oriented in school, community, and hospital settings involving students, teachers, physicians, nurses, and health science researchers. This edition features more applied questions for the case studies, general guidelines on how to create a poster, journal publication, and oral presentation, and reorganized chapters.
