Editorial Review

From Library Journal

Following the sometimes dubious directives of the dying Oversoul--an orbiting computer that has preserved peace on the planet Harmony for millennia, Naifeh and his family prepare to voyage to the stars in search of the planet called Earth. With characteristic insights into the moral nature of the individual, Card explores the ramifications that face those persons chosen to answer a "higher call." This second volume of the "Homecoming" will appeal to the author's many fans and is a good purchase for most libraries.
