### Editorial Review

#### From Library Journal

Radhasoami, a new religion of Northern India, provides a fascinating case study in the rise and development of a religion which seeks to integrate post-Newtonian science, modern life, and religious faith derived in large part from the teachings of medieval Hindu saints. This useful book for those interested in Indian religions is a valuable study of the interaction between religion and society. It is also for those concerned with the survival of faith in today's world. This is recommended for academic and large public libraries.

#### Review

"This book conveys the feeling of a well-seasoned and ripened academic offering.... Written so well, and covering so much, [this book] will be the definitive source to be mined for years by scholars of Radhasoami or a number of related interests." --**Robert L. Brown, *The Journal of Asian Studies***

"This book provides the most consolidated, comprehensive and critical account of the Radhasoami movement to date." --**Arvind Sharma, *Sociology of Religion***

"[A] badly needed . . . account of both the [Radhasoami] faith and its expansion. Juergensmeyer's account is more than merely competent. The book has been researched, planned and written with considerable skill and the result is one for which we can be very grateful." --**Hew McLeod, *Asian Studies Review***
