### **Amazon.com Review**

Here's a great big fantasy that you can pull over your head like a comfy old sweater and disappear into for a whole weekend. Christopher Paolini began *Eragon* when he was just 15, and the book shows the influence of Tolkien, of course, but also Terry Brooks, Anne McCaffrey, and perhaps even Wagner in its traditional quest structure and the generally agreed-upon nature of dwarves, elves, dragons, and heroic warfare with magic swords.

Eragon, a young farm boy, finds a marvelous blue stone in a mystical mountain place. Before he can trade it for food to get his family through the hard winter, it hatches a beautiful sapphire-blue dragon, a race thought to be extinct. Eragon bonds with the dragon, and when his family is killed by the marauding Ra'zac, he discovers that he is the last of the Dragon Riders, fated to play a decisive part in the coming war between the human but hidden Varden, dwarves, elves, the diabolical Shades and their neanderthal Urgalls, all pitted against and allied with each other and the evil King Galbatorix. Eragon and his dragon Saphira set out to find their role, growing in magic power and understanding of the complex political situation as they endure perilous travels and sudden battles, dire wounds, capture and escape.

In spite of the engrossing action, this is not a book for the casual fantasy reader. There are 65 names of people, horses, and dragons to be remembered and lots of pseudo-Celtic places, magic words, and phrases in the Ancient Language as well as the speech of the dwarfs and the Urgalls. But the maps and glossaries help, and by the end, readers will be utterly dedicated and eager for the next book, *Eldest*. (Ages 10 to 14) --*Patty Campbell*

In wunderkind (he's 18) Christopher Paolini's impressive epic fantasy, *Eragon*, the titular hero (who's 15) and Saphira, the dragon he's raised from a baby, set out to avenge the murder of Eragon's uncle and soon find themselves pursued by the fanatical king Galbatorix. The fantasy bildungsroman has the brave youngster learning about exile, magic, love and his own destiny, and Paolini promises his saga will continue in two more volumes of the planned Inheritance series.

### **From School Library Journal**

Grade 7 Up--Christopher Paolini creates memorable characters in a detailed fantasy world (Knopf, 2003) in this tale about Eragon, a teenager who is newly homeless and uncertain of his ancestry, but meets his destiny head on. The odd blue "stone" he found has hatched into a dragon. He and Safira are able to communicate telepathically, so even when they are parted during their high and low adventures with magicians, dwarves, inhuman monsters sent to do the evil king's bidding, elves, and simply crafty humans, they are able to work together as a team. Paolini has received some popular press because of his own youth, and indeed some of the details here are naïve--"Medieval common people certainly didn't retire to their own personal bedrooms!"--but overall he has designed a well integrated epic, complete with a Latinate language, politically acute issues, and well-realized emotions. Narrator Gerard Doyle's extensive repertoire of voices provides a compelling atmosphere that will hold the audience's attention through Eragon's travails. His slightly British accent lends just the right storytelling texture, making the audio performance an extension of the story itself. In addition to fans of Tolkien and Bradley, this will appeal to listeners looking for psychological suspense accessible to teens and adults alike.--Francisca Goldsmith, Berkeley Public Library, CA
