## Inspiration: Your Ultimate Calling By Wayne W. Dyer

There's a voice in the universe calling each of us to remember our purpose—our reason for being here now, in this world of impermanence. The voice whispers, shouts, and sings to us that this experience of being in form, in space and time, knowing life and death, has meaning. The voice is that of inspiration, which is within each and every one of us. In this groundbreaking book, Dr. Wayne W. Dyer explains how we've chosen to enter this world of particles and form. From our place of origin, in ways that we don't readily comprehend now, we knew what we were coming here to accomplish, and we participated in setting this life process in motion. So why not think this same way? Why put the responsibility or blame on any one or any thing that's not a part of us? On Earth we have the capacity of volition—we can choose—so let's assume that we had the same capacity when we resided in the spiritual realm. We chose our physical body, and we chose the parents we needed for the trip. It doesn't seem too great a stretch to move into the idea that we chose this life in concert with our Source. Each chapter in this book is filled with specifics for living an inspired life. From a very personal viewpoint, Wayne Dyer offers a blueprint through the world of spirit to inspiration, your ultimate calling.

## **Editorial Review**

From Publishers Weekly

The bestselling author of the New Age classic *The Power of Intention* has another book that will probably delight his fans and new readers who resonate with his spiritual approach. Inspiration, Dyer writes, is the opposite of motivation and goal-oriented thinking, the latter, "grabbing an idea and carrying it through to an acceptable conclusion." Inspiration, on the other hand, is when "an idea has taken hold of us from the invisible reality of Spirit." To Dyer, getting rid of ego in all its manifestations is the first step to connecting with the power of inspiration. In alternately wise and plodding prose, Dyer cites self-laudatory examples of his own personal generosity to strangers as well as various synchronicities that he takes to be expressions of the interconnectedness of all things and signs that he is spiritually on the right path. Yet many of the ideas here seem recycled; anyone who has watched *What the Bleep Do We Know?* will be familiar with them, and Dyer's name-dropping asides about his Maui writing retreat and successful lifestyle can be off-putting.
