PHP for Absolute Beginners (Expert's Voice in Open Source)

By Jason Lengstorf

PHP for Absolute Beginners (Expert's Voice in Open Source) By Jason Lengstorf

Get started in web development using PHP. Even if you've never programmed before, author **Jason Lengstorf** introduces you to PHP by building a PHP-based blogging site while covering all the good coding practices and skills that you'll need when you start your own projects.

- Create web content with version 5.3 of PHP
- Learn good coding practices from the very beginning
- Learn how systems like WordPress work

Jason Lengstorf takes a practical approach to teaching you how to build a content management system. You'll dive into writing web applications and be guided by the author's supportive explanations, rather than learning elements of the PHP language and viewing examples after.

PHP for Absolute Beginners starts slowly and covers everything you need to know about beginning web development using PHP. Even the most inexperienced web developer will find this book accessible.

What you'll learn

- Install Apache, MySQL, and PHP
- Navigate the PHP language
- Learn the basics of writing clean code
- Talk to a database
- Make a PHP site more secure
- Create a complete blogging site

Who this book is for

PHP for Absolute Beginners is written for the complete novice; no previous coding knowledge is assumed, and all concepts are explained to ensure maximum understanding.

However, later chapters in the book may appeal to intermediate programmers

looking to improve their abilities in the area of developing content management systems or those interested in making the move from procedural code to the more modular object-oriented approach.

Editorial Review

About the Author
Jason Lengstorf is a 27-year-old turbogeek from Portland, OR. He started building websites in his late teens when his band couldn t afford to pay someone to do it, and he continued building websites after he realized his band wasn t actually very good. He s been a full-time freelance web developer since 2007, and expanded his business under the name Copter Labs, which is now a distributed freelance collective, keeping about 10 freelancers worldwide busy. He is also the author of PHP for Absolute Beginners and Pro PHP and jQuery.

Users Review
