The Ogre Downstairs By Diana Wynne Jones

Chemical Warfare?

Casper, Johnny, and Gwinny are sure they'll never be happy again when their mother marries Jack, who is as mean as an ogre. To make matters worse, two obnoxious stepbrothers, Malcolm and Douglas, move in as well. No one -- except the parents -- seems happy. But when Jack gives a chemistry set to each group of kids, bigger problems take over. These are, it turns out, not your average chemicals. In one hilarious experiment after another, the kids discover they can fly, switch bodies with one another, and even disappear. If only they could figure out how to *undo* all of this! Are one combustible stepfamily and two explosive chemistry sets a formula for disaster?

Editorial Review

From Publishers Weekly

"When five youngsters are given chemistry sets, the results are hilariously explosive," said PW. Ages 8-up.

Review

Praise for Diana Wynne Jones '[Wynne Jones] has a unique record of producing books you can't forget... Every book is different. And every book is likely to be in someone's top seven... I feel we need to acknowledge how lucky those of us are who grew up on her books, and to ensure subsequent generations enjoy the same intense and subtle pleasure.' The Guardian "...Her hallmarks include laugh-aloud humour, plenty of magic and imaginative array of alternate worlds. Yet, at the same time, a great seriousness is present in all of her novels, a sense of urgency that links Jones's most outrageous plots to her readers' hopes and fears..." Publishers Weekly "Truly magical - guaranteed to leave you gasping - even hotter than Potter" The Bookseller "Diana Wynne Jones could teach Stephen King and JK Rowling a thing or two ... [she] has a skill for inserting just the right amount of detail in her written words, leaving you satiated but not stuffed."
