Field's Anatomy, Palpation & Surface Markings, 5e By Derek Field Grad Dip Phys FCSP DipTP SRP, Jane Owen Hutchinson MA(Ed) MCSP SRP Cert Ed Dip TP Dip Rehab Counselling

Now in its fifth edition, this reliable resource continues to be a practical guide to identification and palpation of significant anatomical landmarks and structures. With a combination of clear text, drawings and photographs it helps the student to acquire knowledge of structures and movements palpable below the surface and to develop their tactile skills.

The new edition now incorporates educational aids such as full colour photographs and drawings along with access to an online resource of 100s of self-assessment questions which gives the student the opportunity to check their knowledge and receive feedback.

- Introductory chapter on the principles and practice of palpation vital to background study
- Step-by-step guide to identification and palpation of structures
- Facilitates learning by providing a clear and concise approach
- Offers basic information on accessory movements
- Full colour throughout
- Enhanced photographs and artwork
- Self-assessment online via Elsevier's **Evolve Learning Resources** - log on to <http://evolve.elsevier.com/Field/anatomy> to access:
 - Over 140 drag and drop questions
 - Just under 600 self-answer questions with feedback provided
 - Bank of 250 images
- Full colour throughout
- Enhanced photographs and artwork
- Self-assessment online via Elsevier's **Evolve Learning Resources** – log on to <http://evolve.elsevier.com/Field/anatomy> to access:
 - over 140 drag and drop questions
 - just under 600 self-answer questions with feedback provided
 - bank of 250 images

Editorial Review

Review

"The book starts with a detailed definition of palpation, its application and importance of its use in clinical practice. It has a particular focus on how to improve the art of palpation by giving the reader techniques on how to improve manual dexterity and sensitivity to aid palpation ability...Whilst this book heavily focuses on acquisition of anatomical knowledge through familiarisation of surface markings, it appreciates that palpation skills are developed over many years and that the book is best utilised as an adjunct with other learning methods, reflecting the current diverse trends in academic and clinical practice....Overall this is a very well presented and picture rich book that allows the reader to easily understand surface marking of anatomy and begin to build palpation skills. It is best aimed at students or the newly qualified clinician working in Neuro-musculoskeletal practice."

Physical Therapy in Sport, December 2012

Users Review

From reader reviews:

Loren Hatfield:

People live in this new day time of lifestyle always attempt to and must have the time or they will get great deal of stress from both everyday life and work. So , whenever we ask do people have free time, we will say absolutely indeed. People is human not really a robot. Then we question again, what kind of activity do you possess when the spare time coming to a person of course your answer can unlimited right. Then do you ever try this one, reading guides. It can be your alternative in spending your spare time, typically the book you have read is Field's Anatomy, Palpation & Surface Markings, 5e.

Ivan Dinkel:

Are you kind of occupied person, only have 10 or perhaps 15 minute in your morning to upgrading your mind ability or thinking skill possibly analytical thinking? Then you are having problem with the book compared to can satisfy your short period of time to read it because this time you only find publication that need more time to be study. Field's Anatomy, Palpation & Surface Markings, 5e can be your answer as it can be read by anyone who have those short extra time problems.

Robert McCauley:

In this particular era which is the greater man or woman or who has ability to do something more are more important than other. Do you want to become among it? It is just simple approach to have that. What you are related is just spending your time almost no but quite enough to have a look at some books. One of the books
