Editorial Review

From the Back Cover

VBScript, JScript, and PowerShell—together in a single, comprehensive guide!

With more than 300 sample scripts and an extensive collection of library functions, this book is the most thorough guide to scripting the Windows operating system on the market. You'll discover how scripting can double your productivity by automating repetitive tasks—and you'll find pages of practical VBScript, JScript, and PowerShell solutions together, chapter by chapter, throughout the book. With all three powerhouse programming tools in one comprehensive 800-page resource, this is the scripting book you need to succeed.

- Automate tasks, such as the creation of user accounts or data retrieval, with scripting
- Master the essentials of the VBScript, JScript, and PowerShell
- Schedule one-time and recurring tasks with network and directory service scripting
- Work with files, the registry, event logging, ADSI, and more with PowerShell
- Tap into Windows scripting libraries for file, network, and system utilities
- Examine all related technologies, including ActiveX®, Active Directory®, and Windows® Management Instrumentation
- Develop prototype applications or procedures rapidly and easily using scripts
