Editorial Review

About the Author

Robert W. Weinbach, Ph.D., MSW, ACSW is Distinguished Professor Emeritus at the University of South Carolina, where he continues to teach graduate level research courses in the College of Social Work. He is also a co-author of *Research Methods for Social Workers, seventh Edition; The Social Worker as Manager, Sixth Edition*; and is the author of *Evaluating Social Work Services and Programs*, (all published by Allyn & Bacon), as well as over 75 other publications and invited book chapters. He earned graduate degrees in social work from SUNY-Buffalo and Ohio State University and has worked in both medical and psychiatric social work practice and as a program evaluator.

Richard M. Grinnell, Jr. is a Professor of Social Work and holds the Clair and Clarice Platt Jones/Helen Frays Endowed Chair of Social Work Research in the School of Social Work at Western Michigan University. He received his Ph.D. in social work from the University of Wisconsin at Madison and for over the past 40 years has held academic and senior university administrative appointments in Australia, Canada, and the United States. He has published over 100 journal articles, book chapters, and conference presentations, and 36 books. His two latest books are *Evaluation for Social Workers: Foundations of Evidence-Based Programs*, 6th edition (Oxford University Press, 2012, with Peter Gabor and Yvonne Unrau) and *Social Work Research and Evaluation: Foundations of Evidence-Based Practice*, 10th edition (Oxford University Press, 2014, with Yvonne Unrau).

Users Review

From reader reviews:

Pauline Mueller:

As people who live in typically the modest era should be update about what going on or details even knowledge to make them keep up with the era that is always change and advance. Some of you maybe will update themselves by examining books. It is a good choice for you personally but the problems coming to you actually is you don't know which you should start with. This Statistics for Social Workers (9th Edition) is our recommendation to make you keep up with the world. Why, as this book serves what you want and need in this era.

Geraldine Bagley:

Playing with family in a park, coming to see the ocean world or hanging out with close friends is thing that usually you will have done when you have spare time, then why you don't try factor that really opposite from that. Just one activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of knowledge. Even you love Statistics for Social Workers (9th Edition), it is possible to enjoy both. It is great combination right, you still wish to miss it? What kind of hang type is it? Oh can happen its mind hangout men. What? Still don't get it, oh come on its referred to as reading friends.

Anthony Lucas:

The book untitled Statistics for Social Workers (9th Edition) contain a lot of information on this. The writer explains her idea with easy means. The language is very clear to see all the people, so do not necessarily worry, you can easy to read the item. The book was authored by famous author. The author gives you in the new period of literary works. You can easily read this book because you can read on your smart phone, or program, so you can read the book throughout anywhere and anytime. If you want to buy the e-book, you can available their official web-site in addition to order it. Have a nice go through.

Mark Malek:

As a university student exactly feel bored to be able to reading. If their teacher requested them to go to the library in order to make summary for some reserve, they are complained. Just tiny students that has reading's heart or real their hobby. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading seriously. Any students feel that reading through is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important for you. As we know that on this age, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. So , this Statistics for Social Workers (9th Edition) can make you truly feel more interested to read.
