Editorial Review

From the Author

This is an exciting time to be in the field of web development! My book, Basics of Web Design: HTML5 & CSS3, help students develop a well-rounded skillset so they can design HTML5 web pages that work today in addition to being ready to apply of new CSS3 coding techniques.

Building on the textbook's successful first edition we kept what you like -- topics introduced in two pages, color illustrations and screen captures, lots of hands-on practice exercises, and a case study website that students build as they work through the book. The new second edition minimizes coverage of XHTML and focuses on HTML5 and CSS. There are now two case study websites for students to practice with. There is also expanded coverage of responsive web design techniques including media queries with hands-on practice exercises. exercises. Today's learners are busy multitaskers. The book is organized in two-page sections that quickly introduce the reader to new topics, provide examples, and offer hands-on exercises. This approach will get your students up-and-running quickly.

The textbook companion website at webdevbasics.net has a page for each chapter with hyperlinks for websites listed in the book, information on emerging trends, additional examples, corrections, and review games. Instructor materials are available from the publisher's website.

About the Author
Dr. Terry Ann Felke-Morris is a Professor at William Rainey Harper College in Palatine, Illinois. She holds a Doctor of Education degree, a Master of Science degree in information systems, and numerous certifications, including Adobe Certified Dreamweaver 8 Developer, WOW Certified Associate Webmaster, Microsoft Certified Professional, Master CIW Designer, and CIW Certified Instructor.

Dr. Morris is an innovative instructor and was awarded the Harper College 2002-2003 Glenn A. Reich Memorial Award for Instructional Technology in recognition of her efforts. In 2006, she received the 2006 Blackboard Greenhouse Exemplary Online Course Award for use of Internet technology in the academic environment. Dr. Morris was chosen by the Instructional Technology Council (ITC) as the recipient of their 2008 Outstanding e-Learning Faculty Award for Excellence.

With over 20 years of information technology experience in business and industry, Dr. Felke-Morris published her first website in 1996 and has been working with the Web ever since. A long-time promoter of Web standards, she has been a member of the Web Standards Project Education Task Force. Dr. Morris is the author of the popular *Web Development and Design Foundations with XHTML* textbook, currently in its sixth edition. She was instrumental in developing the Web Development degree and certificate programs at Harper College and currently is the senior faculty member in that area.
