**Human Geography in Action** By Michael Kubly, John Harner, Patricia Gober

The new fifth edition enhances coverage in the field by enabling economists and political geographers to work online with GIS maps, spreadsheets, simulations, and animated graphs. The book has been updated to use maps of traditional foods and vernacular phrases for soft drinks to illustrate culture regions. Expanded discussions of migration include a look at international immigration. New material is also presented on the local food movement and the breakdown in negotiations for agricultural trade agreements at the Doha trade summit. In addition, economists and political geographers will find key terms throughout the chapters such as creative class, outsourcing, substitution of capital for labor, and transit-oriented development.

## **Editorial Review**

### **Review**

"...clearly explains the complexity of water resources in a highly engaging and thorough manner..."(Water Resources Development, Vol.19, No.1, 2003)

### **From the Publisher**

This book/CD package takes an active learning approach to human geography. Computerized activities expose readers to GIS, spreadsheets, simulation and graphing--without having to learn four different complex software packages. The exercises explore AIDS, population growth, jobs, environmental change, baseball and other interesting topics. This book teaches readers how to collect, analyze, interpret and present information.

### **From the Back Cover**

#### **Put Human Geography in Action with this updated, interactive CD**

"Learning by doing" is the exciting new way to experience human geography! The CD included with your textbook will enable you to analyze and interpret geographic information and develop real-world skills. You'll have fun as you interact with activities that are filled with animated graphics, rich color, and powerful analytical tools. The second edition CD offers more activities, updated data, new tools, and an easy-to-use, web-browser interface!

With this book and CD You'll be able to:

- Customize maps of ethnic populations in the United States and Canada using the power of GIS (now with 2000 Census data).
- Analyze the effects of globalization on agriculture in Mexico and the Amazon using digital satellite images.
- Overlay maps of different cultural traits to define the Middle East and American Southwest culture regions using geographic information systems(GIS).
- Simulate India's demographic future under different fertility assumptions.
- Debate five real-world planning scenarios for channeling urban sprawl in Colorado springs.
- Also add new baseball franchises, watch AIDS spread, predict migration to our state, map segregation patterns, take a virtual urban field trip, and analyze environmental systems.

## **Users Review**

### **From reader reviews:**

#### **Charles Beaudoin:**
