Machiavelli Goes to the Movies: Understanding The Prince through Television and Film By Eric Kasper, Troy Kozma

Niccolò Machiavelli's *The Prince* remains an influential book more than five centuries after he wrote his timeless classic. However, the political philosophy expressed by Machiavelli in his tome is often misunderstood. Although he thought humans to be rational, self-interested creatures, and even though he proposed an approach to politics in which the ends justify the means, Machiavelli was not, as some have argued, simply "a teacher of evil." *The Prince*'s many ancient and medieval examples, while relevant to sixteenth century readers, are lost on most of today's students of Machiavelli. Examples from modern films and television programs, which are more familiar and understandable to contemporary readers, provide a better way to accurately teach Machiavelli's lessons. Indeed, modern media, such as *Breaking Bad*, *The Godfather*, *The Walking Dead*, *Charlie Wilson's War*, *House of Cards*, *Argo*, and *The Departed*, are replete with illustrations that teach Machiavelli's critical principles, including the need to caress or annihilate, learning "how not to be good," why it is better to be feared than loved, and how to act as both the lion and the fox. Modern media are used in this book to exemplify the tactics Machiavelli advocated and to comprehensively demonstrate that Machiavelli intended for government actors and those exercising power in other contexts to fight for a greater good and strive to achieve glory.

Editorial Review

Review

Machiavelli is one of the most famous philosophers of all time, and the advice he offers in *The Prince* is noticeably influential in politics and in popular culture. Through the lens of this book we see that we can also learn about Machiavelli through television and film. The chapters in *Machiavelli Goes to the Movies* piece together significant works of popular culture, and insightfully demonstrate their reflection of Machiavelli's ideas, and what movies and television can continue to teach us about philosophy. (Timothy M. Dale, University of Wisconsin-La Crosse)

The devil. Old Nick. Teacher of evil. Murderous Machiavelli. Known by many infamous names, Italian philosopher Niccolò Machiavelli remains one of the most intriguing and frequently misunderstood political thinkers in history. Though it was called 'poisonous' by his contemporaries, Machiavelli's *The Prince*, his most influential work, establishes a prescription for political realism that continues to frame discussion and policy today. In this book, Eric Kasper and Troy Kozma reveal why. Through movies like *Lincoln*, *Harry Potter*, *The Godfather* and *The Hunger Games*, and television shows like *Breaking Bad*, *House of Cards* and *The Walking Dead*, Kasper and Kozma bring *The Prince* to life and penetrate Machiavelli's mystique. In the process, they offer deeper insights and reflections into Machiavellian thought as intriguing as *The Prince* itself. This book is a must read for anyone who wants to understand not just Machiavelli but power and politics laid bare through film and television. (Joseph J. Foy, University of Wisconsin Colleges)

This book argues that the purported Machiavellian dictum 'the end justifies the means' is misrepresented by his reputation as a teacher of evil. According to the authors, even though Machiavelli does counsel the use of force and fraud without regard to ethical considerations, he does so in the service of the common good. It is true that political leaders sometimes need to act against the common good, but this extenuating advice is only meant for political leaders rather than ordinary citizens. Despite popular misconceptions about Machiavelli's advice, the authors find abundant evidence to support their own interpretation of Machiavelli in popular television programs and films (almost 40 of them). The attempt to illustrate how Machiavelli's thought pervades everyday lives raises interesting questions about distinguishing between ordinary human cruelty evident in antiquity and the 'common good cruelty' suggested by the authors. By considering why Machiavelli is so unique, readers are given the opportunity to begin to understand why a book like *The Prince* has withstood the test of time and even inspired a few private citizens to act like political leaders in order to achieve political power. Useful for faculty who have difficulty making Machiavelli's scintillating and intrepid prose more interesting to students. Summing Up: Recommended. General readers and undergraduates. (*CHOICE*)

About the Author

Eric T. Kasper is assistant professor of political science at the University of Wisconsin-Eau Claire.

Troy A. Kozma is associate professor of philosophy for the University of Wisconsin Colleges.

Users Review

From reader reviews:

Manuel Arndt:

The author explained their idea in the simple way, thus all of people can easily to know the core of this guide. This book will give you a lots of information about this world now. To help you see the represented of the world within this book.

Margaret Ochoa:

As a student exactly feel bored to be able to reading. If their teacher expected them to go to the library or make summary for some book, they are complained. Just minor students that has reading's spirit or real their hobby. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading seriously. Any students feel that looking at is not important, boring and also can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this Machiavelli Goes to the Movies: Understanding The Prince through Television and Film can make you truly feel more interested to read.
