Marine Structural Design Calculations By Mohamed El-Reedy

The perfect guide for veteran structural engineers or for engineers just entering the field of offshore design and construction, **Marine Structural Design Calculations** offers structural and geotechnical engineers a multitude of worked-out marine structural construction and design calculations. Each calculation is discussed in a concise, easy-to-understand manner that provides an authoritative guide for selecting the right formula and solving even the most difficult design calculation.

Calculation methods for all areas of marine structural design and construction are presented and practical solutions are provided. Theories, principles, and practices are summarized. The concentration focuses on formula selection and problem solving. A “quick look up guide”, **Marine Structural Design Calculations** includes both fps and SI units and is divided into categories such as Project Management for Marine Structures; Marine Structures Loads and Strength; Marine Structure Platform Design; and Geotechnical Data and Pile Design. The calculations are based on industry code and standards like American Society of Civil Engineers and American Society of Mechanical Engineers, as well as institutions like the American Petroleum Institute and the US Coast Guard. Case studies and worked examples are included throughout the book.

- Calculations are based on industry code and standards such as American Society of Civil Engineers and American Society of Mechanical Engineers
- Complete chapter on modeling using SACS software and PDMS software
- Includes over 300 marine structural construction and design calculations
- Worked-out examples and case studies are provided throughout the book
- Includes a number of checklists, design schematics and data tables

Editorial Review

About the Author

Mohamed A. El-Reedy's background is in structural engineering. His main area of research is reliability of concrete and steel structures. He has provided consulting to different engineering companies, the oil and gas industries in Egypt, and international oil companies such as the International Egyptian Oil Company (IEOC) and British Petroleum (BP). Moreover, he provides different concrete and steel structure design packages for residential buildings, warehouses, and telecommunication towers, and for electrical projects with WorleyParsons Egypt. He has participated in Liquified Natural Gas (LNG) and Natural Gas Liquid (NGL) projects with international engineering firms. Currently, Dr. El-Reedy is responsible for reliability, inspection, and maintenance strategy for onshore concrete structures and offshore steel structure platforms. He has performed these tasks for a hundred structures in the Gulf of Suez and the Red Sea.

Users Review

From reader reviews:

Kathy Vaughn:

Book is to be different for each grade. Book for children till adult are different content. As you may know that book is very important normally. The book Marine Structural Design Calculations had been making you to know about other knowledge and of course you can take more information. It is extremely advantages for you. The publication Marine Structural Design Calculations is not only giving you far more new information but also to become your friend when you feel bored. You can spend your personal spend time to read your reserve. Try to make relationship with all the book Marine Structural Design Calculations. You never really feel lose out for everything when you read some books.

Philip Mejia:

This Marine Structural Design Calculations book is simply not ordinary book, you have it then the world is in your hands. The benefit you have by reading this book is information inside this reserve incredible fresh, you will get facts which is getting deeper anyone read a lot of information you will get. This specific Marine Structural Design Calculations without we understand teach the one who reading it become critical in imagining and analyzing. Don't be worry Marine Structural Design Calculations can bring whenever you are and not make your tote space or bookshelves' turn out to be full because you can have it within your lovely laptop even phone. This Marine Structural Design Calculations having good arrangement in word along with layout, so you will not really feel uninterested in reading.

Joseph Whitely:

Reading a publication tends to be new life style within this era globalization. With examining you can get a lot of information that may give you benefit in your life. Together with book everyone in this world can easily share their idea. Ebooks can also inspire a lot of people. Plenty of author can inspire their very own reader with their story as well as their experience. Not only the storyline that share in the textbooks. But also

they write about the ability about something that you need example. How to get the good score toefl, or how to teach your kids, there are many kinds of book that you can get now. The authors nowadays always try to improve their proficiency in writing, they also doing some exploration before they write for their book. One of them is this Marine Structural Design Calculations.

Ronald Folk:

Playing with family in a park, coming to see the coastal world or hanging out with pals is thing that usually you might have done when you have spare time, and then why you don't try thing that really opposite from that. One activity that make you not sensation tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Marine Structural Design Calculations, you can enjoy both. It is excellent combination right, you still want to miss it? What kind of hang-out type is it? Oh occur its mind hangout folks. What? Still don't buy it, oh come on its identified as reading friends.
