Human Anatomy & Physiology By Elaine N. Marieb, Katja Hoehn

NOTE: You are purchasing a standalone product; MasteringA&P does not come packaged with this content. If you would like to purchase both the physical text and MasteringA&P search for ISBN-10: 0321927028/ISBN-13: 9780321927026 . That package includes ISBN-10: 0321927044/ISBN-13: 9780321927040 and ISBN-10: 0133997022/ISBN-13: 9780133997026.

MasteringA&P should only be purchased when required by an instructor.

For the two-semester A&P course.

Setting the Standard for Innovation in A&P

Human Anatomy & Physiology has launched the careers of more than three million healthcare professionals. With the newly revised **Tenth Edition**, Marieb and Hoehn introduce a clear pathway through A&P that helps students and instructors focus on key concepts and make meaningful connections. Each chapter opens with a visual “Chapter Roadmap” that guides students through the material and shows how concepts are related within and across chapters. The new modular organization makes key concepts more readily apparent and understandable to students, and new videos help students see why the content matters in their course as well as their future careers. As students master important concepts and follow a clear path through chapter content, the expanded suite of learning tools in the book and in MasteringA&P ensure they don’t get lost along the way.

Also Available with MasteringA&P ®

This title is also available with MasteringA&P – an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. Students, if interested in purchasing this title with MasteringA&P, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

Editorial Review

About the Author

For **Elaine N. Marieb**, taking the student's perspective into account has always been an integral part of her teaching style. Dr. Marieb began her teaching career at Springfield College, where she taught anatomy and physiology to physical education majors. She then joined the faculty of the Biological Science Division of Holyoke Community College in 1969 after receiving her Ph.D. in zoology from the University of Massachusetts at Amherst. While teaching at Holyoke Community College, where many of her students were pursuing nursing degrees, she developed a desire to better understand the relationship between the scientific study of the human body and the clinical aspects of the nursing practice. To that end, while continuing to teach full time, Dr. Marieb pursued her nursing education, which culminated in a Master of Science degree with a clinical specialization in gerontology from the University of Massachusetts. It is this experience that has informed the development of the unique perspective and accessibility for which her publications are known.

Dr. Marieb has partnered with Benjamin Cummings for over 30 years. Her first work was *Human Anatomy & Physiology Laboratory Manual* (Cat Version), which came out in 1981. In the years since, several other lab manual versions and study guides, as well as the softcover *Essentials of Human Anatomy & Physiology* textbook, have hit the campus bookstores. This textbook, now in its 10th edition, made its appearance in 1989 and is the latest expression of her commitment to the needs of students studying human anatomy and physiology.

Dr. Marieb has given generously to colleges both near and far to provide opportunities for students to further their education. She contributes to the New Directions, New Careers Program at Holyoke Community College by funding a staffed drop-in center and by providing several full-tuition scholarships each year for women who are returning to college after a hiatus or attending college for the first time and who would be unable to continue their studies without financial support. She funds the E. N. Marieb Science Research Awards at Mount Holyoke College, which promotes research by undergraduate science majors, and has underwritten renovation and updating of one of the biology labs in Clapp Laboratory at that college. Dr. Marieb also contributes to the University of Massachusetts at Amherst where she generously provided funding for reconstruction and instrumentation of a cutting-edge cytology research laboratory. Recognizing the severe national shortage of nursing faculty, she underwrites the Nursing Scholars of the Future Grant Program at the university.

In 1994, Dr. Marieb received the Benefactor Award from the National Council for Resource Development, American Association of Community Colleges, which recognizes her ongoing sponsorship of student scholarships, faculty teaching awards, and other academic contributions to Holyoke Community College. In May 2000, the science building at Holyoke Community College was named in her honor.

Dr. Marieb is an active member of the Human Anatomy and Physiology Society (HAPS) and the American Association for the Advancement of Science (AAAS). Additionally, while actively engaged as an author, Dr. Marieb serves as a consultant for the Benjamin Cummings Interactive Physiology® CD-ROM series.

When not involved in academic pursuits, Dr. Marieb is a world traveler and has vowed to visit every country on this planet. Shorter term, she serves on the scholarship committee of the Women's Resources Center and on the board of directors of several charitable institutions in Sarasota County. She is an enthusiastic

supporter of the local arts and enjoys a competitive match of doubles tennis.

Dr. Katja Hoehn is a professor in the Department of Biology at Mount Royal University in Calgary, Canada. Dr. Hoehn's first love is teaching. Her teaching excellence has been recognized by several awards during her 20 years at Mount Royal University. These include a PanCanadian Educational Technology Faculty Award (1999), a Teaching Excellence Award from the Students' Association of Mount Royal (2001), and the Mount Royal Distinguished Faculty Teaching Award (2004).

Dr. Hoehn received her M.D. (with Distinction) from the University of Saskatchewan, and her Ph.D. in Pharmacology from Dalhousie University. In 1991, the Dalhousie Medical Research Foundation presented her with the Max Forman (Jr.) Prize for excellence in medical research. During her Ph.D. and postdoctoral studies, she also pursued her passion for teaching by presenting guest lectures to first- and second-year medical students at Dalhousie University and at the University of Calgary.

Dr. Hoehn has been a contributor to several books and has written numerous research papers in Neuroscience and Pharmacology. She oversaw a recent revision of the Benjamin Cummings Interactive Physiology® CD-ROM series modules, and coauthored the newest module, The Immune System. Following Dr. Marieb's example, Dr. Hoehn provides financial support for students in the form of a scholarship that she established in 2006 for nursing students at Mount Royal University.

Dr. Hoehn is also actively involved in the Human Anatomy and Physiology Society (HAPS) and is a member of the American Association of Anatomists. When not teaching, she likes to spend time outdoors with her husband and two sons, compete in triathlons, and play Irish flute.

Users Review

From reader reviews:

Robert Farley:

The book Human Anatomy & Physiology can give more knowledge and information about everything you want. So just why must we leave a very important thing like a book Human Anatomy & Physiology? Several of you have a different opinion about reserve. But one aim which book can give many details for us. It is absolutely correct. Right now, try to closer along with your book. Knowledge or information that you take for that, you may give for each other; you are able to share all of these. Book Human Anatomy & Physiology has simple shape but the truth is know: it has great and large function for you. You can search the enormous world by available and read a guide. So it is very wonderful.

John Carter:

In this 21st millennium, people become competitive in every single way. By being competitive currently, people have do something to make these individuals survives, being in the middle of the crowded place and notice by means of surrounding. One thing that occasionally many people have underestimated this for a while is reading. Yep, by reading a e-book your ability to survive improve then having chance to stand than other is high. For yourself who want to start reading a new book, we give you this kind of Human Anatomy & Physiology book as nice and daily reading reserve. Why, because this book is greater than just a book.

Johnnie Nystrom:

Reading a publication can be one of a lot of action that everyone in the world loves. Do you like reading book therefore. There are a lot of reasons why people enjoyed. First reading a e-book will give you a lot of new facts. When you read a reserve you will get new information due to the fact book is one of numerous ways to share the information as well as their idea. Second, studying a book will make you actually more imaginative. When you reading a book especially tale fantasy book the author will bring one to imagine the story how the people do it anything. Third, you are able to share your knowledge to other individuals. When you read this Human Anatomy & Physiology, you may tells your family, friends in addition to soon about yours guide. Your knowledge can inspire different ones, make them reading a e-book.

Richard Sauls:

Human Anatomy & Physiology can be one of your nice books that are good idea. All of us recommend that straight away because this reserve has good vocabulary which could increase your knowledge in terminology, easy to understand, bit entertaining but delivering the information. The article writer giving his/her effort to get every word into enjoyment arrangement in writing Human Anatomy & Physiology although doesn't forget the main place, giving the reader the hottest as well as based confirm resource facts that maybe you can be certainly one of it. This great information can certainly drawn you into brand-new stage of crucial contemplating.
